

WE KNOW AS MUCH ABOUT THE PEOPLE THAT USE OUR TURF AS WE DO ABOUT THE TURF ITSELF

Mountainview has been building a reputation for over 30 years as a supplier of quality home-grown sod and friendly knowledgeable service. We grow our turf with the needs of the user in mind.

As a field manager or school board official, your interests extend beyond aesthetics and into more practical matters. We have solutions to satisfy the environmental, budget and liability concerns that exist in the management of a publicly run playing field.

Mountainview Sportsturf Blend:

We've specially blended this uniform, high-density turf to be wear resistant for athletic purposes and safe enough for everyday play. With above average resilience to weed and pest infestation and tolerance to heavy play, our Sportsturf Blend is the perfect low-maintenance turf for public use.

Quality Monitoring:

Before you even see your sod, we will have formulated a detailed outline of the exact characteristics of your turf. Enjoy peace of mind knowing:

- The density of your turf.
- The precise shade and colour of your turf.
- The quality and condition of your turf.
- That even after installation, we'll be available to attend to your needs if there's a problem.

The Mountainview Advantage:

- We make it a priority to understand the unique requirements of municipalities and school boards.
- Everything is handled in-house. As a result, you can count on better pricing, a broad range of expertise and absolute accountability by purchasing everything from one supplier.
- With our own fleet of trucks and equipment, we can respond to your needs quickly and let you know exactly when your delivery will be arriving.
- Quality of product and service are assured.
- We service a vast territory from Belleville to Montreal through the 401 Corridor.
- We're fully bilingual and looking forward to serving you in the language of your choice.
